EDUCATION

Oakland University

Bachelor of Actuarial Science

- Minors: Finance, Economics, Statistics
- GPA 3.97
- President, Society of Actuarial Science

EXAMS

Financial Mathematics (SOA FM) Exam

Probability (SOA P) Exam

Bloomberg Aptitude Test: 95th percentile

TECHNICAL SKILLS

- Programming: Python, R, VB.net
- Data & Analytics: Data Analysis, Data Modeling, Statistical Analysis (ANOVA, Multivariate)
- Tools: Microsoft Excel (Advanced), Power BI, Pandas, SAP
- Other: Financial Analysis, Forecasting & Budgeting, Executive Reporting

PROJECTS

Insurance Purchase Prediction Model (Allstate Kaggle Competition)

- Developed predictive model to estimate customer insurance purchase behavior using real-world dataset
- Engineered 100+ features from time-series and categorical data to improve model performance
- Modeled multi-variable outcomes across 2,000+ possible combinations
- Achieved 53.12% prediction accuracy, closely approaching top competition score (53.74%)
- Demonstrated strong capabilities in data cleaning, feature engineering, and predictive modeling

PROFESSIONAL EXPERIENCE

Property Manager & Real Estate Investor (Self-Employed) 2021 - Present

- Managed financial performance of residential investment property, including budgeting, forecasting, and ROI analysis
- Modeled cash flow scenarios to support investment decisions and optimize returns
- Analyzed cost trends and capital expenditures to improve long-term asset performance

Karma Automotive

Production Control & Logistics Manager | 2019 - 2020

- Led production planning and material availability using SAP systems
- Analyzed supply chain constraints and implemented solutions to improve operational efficiency
- Optimized scheduling and inventory alignment to reduce delays

Launch Manager, Materials | 2018 - 2019

- Designed data-driven BOM strategy reducing material waste and improving forecasting accuracy
- Built logic-based material selection framework using equivalency modeling
- Identified and mitigated material availability risks across production builds

Supervisor, Plant Purchasing | 2016 - 2018

- Managed procurement strategy and capital budgets
- Conducted cost analysis and vendor evaluation to optimize sourcing decisions
- Collaborated cross-functionally with engineering, finance, and operations teams
